Product Information Sheet

Código: C1898

Culture Tube, Flip-Cap, Sterile

Our flip-cap culture tubes are sterile, but can be autoclaved for repeated use. They have a hinged, locking cap that can be opened with one hand and are the largest tubes available at PhytoTech.

Note:
Cannot be autoclaved at temperatures greater than 121 °c.
When autoclaving, leave the cap slightly ajar to prevent damage to the tube.

Autoclavability	Up to 121 °C
Diameter	44 mm
Volume	145 mL
Material	Polypropylene
Product Number	C1898
Height	98 mm
